

WHO WE ARE

The mission of Shrewsbury Robotics is to provide students in the Shrewsbury Public School system an opportunity to develop real world expertise in a fun, competitive atmosphere. We cultivate teamwork, creativity and problem solving skills, while teaching basic engineering concepts. Our goals rest on one very important principle: the belief that every student is capable of becoming an outstanding member of the community. Our goal is to tap into this hidden potential, utilizing our three most important relationships: the strong bond between industry and education, the strong bond between student and mentor, and the strong bond between Shrewsbury Robotics and the community.

Sponsor us!

Help us to inspire the new generation to pursue science, technology, engineering and mathematics-and build a solid STEM foundation for the future.

Yes, I would *like* to sponsor The Colonials Team 467.

WHAT WE DO

Shrewsbury Robotics, founded in 1999, is made up of three distinct branches: The Shrewsbury High School FIRST Robotics Competition program, The Oak and Sherwood Middle School FIRST LEGO League Program and the Summer Robotics and Science Camp. All programs fall under the leadership of the Shrewsbury Robotics Steering Committee.

Our FRC Team 467 is led by student leaders, industry engineers, parents, and community members. Every year, an engineering committee consisting of mentors and engineering sub-team student leaders direct the creation of the robot throughout the six-week build season. After the robot is complete, the team travels to two regional competitions; these usually occur in March and early April. During the year, the team participates in many team outreach and community building events.

WHY WE DO IT

FIRST's mission is "to inspire young people to be science and technology leaders" and Team 467 wholeheartedly strives to achieve this. Our motto, "We not Me" means that teamwork and the spread of STEM education in our community is vital to keeping our program thriving. Each and every member of our team has a part to play in the the 467 family, and our passion for all that FIRST stands for keeps us growing and competing every year.
